

SPECIFICATIONS:

Compressor Type:

Belt Driven, 100% duty cycle, VMAC oil-injected rotary screw

Rated Air Capacity:

30 CFM @ 100 PSI (150 PSI max)

Engine:

Honda GX390 air cooled 4-stroke OHV with electric start, EPA and CARB compliant, Honda approved application

System Weight (wet):

Approx. 93 kg (205 lbs)

Dimensions:

60.7cm (H) x 54.4cm (W) x 85.1cm (L) /
23.9" (H) x 21.4" (W) x 33.5" (L)

Mounting Plate:

48.6cm (W) x 63.5cm (L)
19.125" (W) x 25.0" (L)

Decibels (dB) @ 20 feet:

67 - 81 dB

Fuel Tank Capacity:

6.1 Litres (1.6 gallons)

Battery (included):

12V, 210CCA, 260CA

Safety Features:

Compressor thermal protection circuit, automatic rapid blow-down valve on tank, 200 PSI pressure relief valve, low engine oil pressure shutoff

Warranty:

TECHNI Lifetime Warranty on VMAC air compressors*; one year on all other major components; for details, visit:
www.technisystems.co.uk

G30 AIR COMPRESSOR

Techni
S Y S T E M S

technisystems.co.uk

THE G30 IS THE MOST AFFORDABLE AIR COMPRESSOR ON THE MARKET.

Rotary screw compressors have already proved their undisputed technical and performance superiority in almost all aspects over traditional reciprocating piston compressors.

The G30 is not only approximately half the price of other rotary screw air compressors, it is also price-competitive with similar CFM reciprocating compressors.

30 CFM. 100% OF THE TIME

Techni Systems G30 petrol driven air compressor includes a patented 30 CFM rotary screw air compressor designed to produce full air power, 100% of the time, so you don't need an air receiver tank. Get jobs done faster, without interruption.

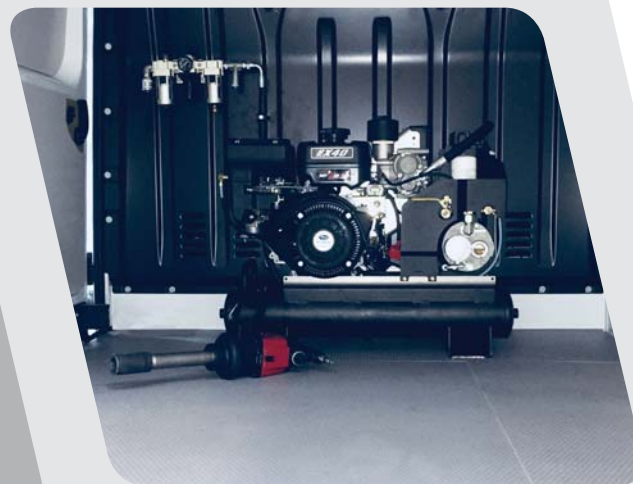

50% LIGHTER & SMALLER

Techni Systems G30 petrol driven air compressors are engineered and manufactured for mobile applications. Techni Systems air compressors feature the latest rotary screw technology integrated into a compact, turn-key package that is significantly lighter and smaller than any other competitive model. Fit more tools, equipment and supplies on your van, without hassle.

INDUSTRY-LEADING RELIABILITY

Engines supplied by Honda come with an industry-leading 3-year warranty and Techni Systems rotary screw air compressors come with the industry's first Lifetime Limited Warranty. For peace of mind, without the headache.

**LIGHT WEIGHT
AFFORDABLE
EASY TO OPERATE**

SYSTEM COMPONENTS

ENGINE THROTTLE CONTROL

Controlled by system air pressure, idles up/down automatically with air demand

FUEL SUPPLY

Manual choke, Fuel on/off

ENGINE

Honda GX390 air-cooled 4-stroke OHV; EPA and CARB-compliant

ELECTRONIC KEY SWITCH

Electric start; hour meter

FUEL TANK

6.1 L (1.6 gallons)

LIFTING HOOK

TECHNI SYSTEMS BELT-DRIVE SYSTEM

Gearless, clutchless, auto-tensioned serpentine belt, steel belt-guard

TECHNI SYSTEMS WHASP TANK

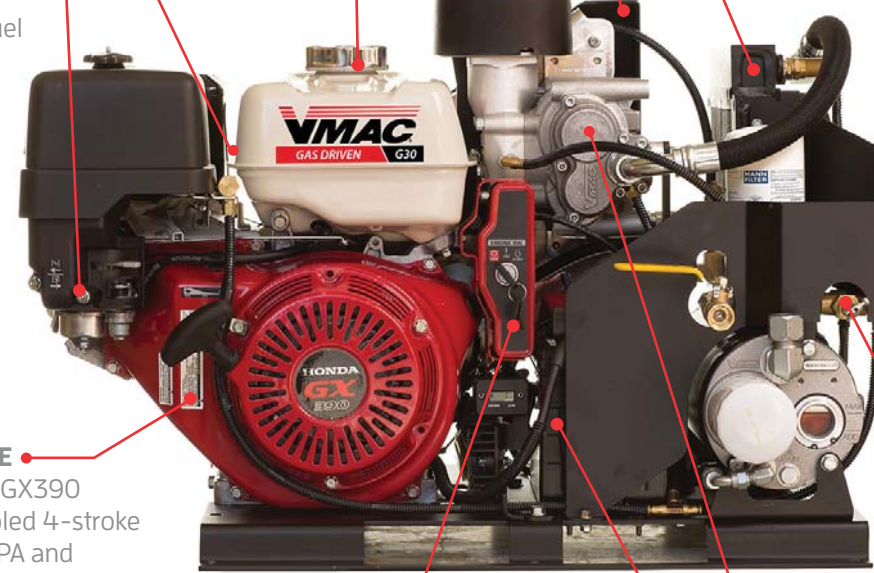

Integrated oil/air separator and air/oil cooler (patent pending)

UNLOADER

Decreases engine load, lowers sound levels, reduces fuel use and engine wear

TECHNI SYSTEMS AIR COMPRESSOR

Oil-injected rotary screw; 30 CFM @ 100 psi; 100% duty cycle; up to 150 psi

G30 QUICK FACTS

- **Powerful** 100% duty cycle means you can fill a tractor trailer tyre in 180 seconds.
- Rotary screw compressors have a long history of superior **performance** and durability.
- Smooth air delivery **eliminates** the need for receiver tanks in most applications. No need for large

"The Honda has a lower idle speed, creating less noise, which is much appreciated when used in residential areas. There is zero lag on air tools under high demand. We've been using VMAC for so long that old issues have been forgotten."
-Chris Binks, Assistant Manager, KAL TIRE

**COMPACT.
POWERFUL.**

OPTIONAL EQUIPMENT

REMOTE CONTROL PANEL

Part No. : 3101.0141
Remote control panel with a ten foot extension for key switch, hour meter, choke, and unloader
