

The Techni Systems **VR40**, 40CFM rotary screw compressor is the perfect choice for **mobile tyre fitting and service/support vehicles**. Its compact, powerful design is fully engineered to integrate into light commercial vehicles.

FREE UP VALUABLE SPACE | REDUCE WEIGHT | INCREASE PAYLOAD

Techni
S Y S T E M S

When no air is being used the system will shut off and automatically restart once tools are used and air is required. This lowers fuel consumption, emissions and noise pollution.

MAXIMISE PRODUCTIVITY

WITH UP TO 40 CFM 100% OF THE TIME

Should concerns over off road driving be an issue, only 1.7 cubic feet is required in the load area for a vertical WHASP tank fitted within our VOBB. With all of the system components (excluding the compressor on the engine) within the VOBB it also makes it easier to switch the system between vans when needed.*

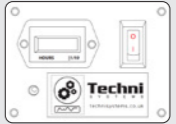

VR40 Pneumatic Tools:

- 1" Impact Gun
- Tyre Inflation
- Die Grinders
- Light Chipping Hammers
- Drills
- Air Jack
- Tyre Changer
- Pneumatic Hand Tools

Ideal for:

- Commercial Tyre Fitting
- Utilities
- Forklift Repair
- On-site Maintenance Vehicles
